

The Roald Dahl Museum and Story Centre Environmental Policy

The Roald Dahl Museum and Story Centre draws visitors from all over the UK and the world. We recognise that, in so doing, we consume the earth's resources and produce waste products and carbon emissions. As part of our ongoing commitment to quality and excellence, we at the Roald Dahl Museum and Story Centre passionately believe that it is our duty to do all we can to protect and conserve our environment, reduce our consumption of resources and thereby our waste and carbon emissions. As a result, we have drawn up a green policy to help us operate our business as sustainably as possible.
